

# Git Assignment

By: Prem Shankar Prasad  
Sah

Create and collaborate on a new empty repository on GitHub.

The screenshot shows a web browser with two tabs: 'Recorded Sessions - Google' and 'PremShankarPrasadSah/'. The address bar shows the URL 'github.com/PremShankarPrasadSah/Assignment'. The GitHub navigation bar includes a search bar, 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The repository page for 'PremShankarPrasadSah / Assignment' is displayed, showing 1 branch (main), 0 tags, and 3 commits. The 'main' branch is selected. The repository contains two files: 'README.md' and 'index.html', both from the first commit. The 'About' section states 'No description, website, or topics provided.' The 'Releases' section states 'No releases published.' The 'Packages' section states 'No packages published.'

Each member should make one commit each.

The screenshot shows a web browser with three tabs: 'Prem Shankar Prasad Sah', 'Recorded Sessions - Google', and 'PremShankarPrasadSah/'. The address bar shows 'github.com/PremShankarPrasadSah/Assignment'. The page displays the repository 'PremShankarPrasadSah / Assignment' with options to 'Unwatch', 'Star' (0), and 'Fork' (0). Navigation links include 'Code', 'Issues', 'Pull requests', 'Actions', 'Projects', 'Wiki', 'Security', 'Insights', and 'Settings'. The repository has a 'main' branch, 1 branch, and 0 tags. A table lists the commit history:

Commit	Author	Message	Time
b5cbc62	PremShankarPrasadSah	first commit	2 days ago
			3 commits

The commit details for 'b5cbc62' show files 'README.md' and 'index.html', both with the message 'first commit' and '2 days ago'. The 'README.md' content is displayed below, showing a 'Demo file' section with 'Assignment' and a 'Prem\_Shankar' section with 'Task assign'.

This group needs to learn and discuss on the following topic - checkout

The **git checkout** command lets you navigate between the branches created by **git branch** . Checking out a branch updates the files in the working directory to match the version stored in that branch, and it tells **Git** to record all new commits on that branch.

**THANK YOU**
